TYPICAL GIFT CARD TRANSACTIONS

TERM	DESCRIPTION
Activate	This initial transaction activates an inactive gift card. This action places a dollar value on a gift card for the first time.
Redeem Value	This transaction type reduces the balance/value of an active gift card by the amount entered.
Add Value	This transaction type increases the balance/value of an active gift card by the amount entered.
Void	Voids the last transaction processed.
Card Balance	This transaction type looks up the current gift card balance.
Deactivate	This transaction type is the opposite of the activate transaction and will <u>permanently</u> disable the card. Should only be used when a gift card has been lost or stolen
Replace	Deactivates a lost, damaged or stolen card and transfers the balance to a new gift card
