

R1000

Coin and Bill Counter

QUICK AND STRAIGHT-FORWARD CASH COUNTING IS VITAL WITHIN THE RETAIL, FOOD SERVICE AND GROCERY INDUSTRIES. FASTER AND MORE ACCURATE THAN HAND COUNTING, R1000 OFFERS SIMPLE CASH RECONCILIATION FUNCTIONS FOR COINS AND BILLS, ENABLING ACCURATE, EASILY MANAGED CASH CONTROL.

The R1000 is designed for businesses that place a priority on optimizing staff time. It can count a full cash register in under one minute, with valuable time savings that enable shorter, more efficient working days where efforts can be focused on tasks that improve your customers' experience.

Simplicity is at the heart of the design. A single, versatile count task with both automatic adding and scrolling ensures that the count is not interrupted by the need to press buttons. A summary screen at the end of the count gives a full breakdown of denominations and totals, preventing mathematical errors. The R1000 also facilitates best practice cash management, allowing store managers to be proactive in identifying and preventing errors or security issues.

"Installing Tellermate has radically improved and simplified our cash management, and has increased cash reconciliation speed and accuracy. Cash is better consolidated and the power of integration has given us cash visibility and audit ability."

The Ti^x range of products have been designed with performance and ease of use in mind.

LARGE DISPLAY: Large, high resolution backlit display enables the use of larger text and clear icons. Screen layout is ergonomically designed for quick and easy operation.

INSTINCTIVE MENU STRUCTURE: Addition of a 'Home' key for fast, main menu access, header text and scroll bars for clear navigation.

INTUITIVE DESIGN: The large display combines with the familiar navigation keys and user software to provide an intuitive, easy to operate user interface.

SOPHISTICATED COMMUNICATIONS: A range of connectivity options are available that provide flexible and comprehensive solutions for all application needs.

INTEGRATED KEYPAD: The Ti^x is also available with front of unit keypad integration for quick data entry and soft touch design key caps for reduced vulnerability to damage.

DAMAGE-RESISTANT DESIGN: Designed for durability, the unique and robust features of the Ti^x reduce damage through impact. Liquid-resistant key mat and drainage lines minimize effects of accidental liquid spills.

FEATURES OF THE Ti^x R1000 :

- Counts bills and coins
- Adds and scrolls denominations automatically
- Full roll function alerts user to incorrect rolls
- Denominational count summary screen
- Fast-Stack, high capacity money platform
